

Invitation to the CECIMO European Research and Innovation Conference

Friday, 9 October 2015

10:00 -13:00

EMO Milano Fairground

**Congress Center Stella Polare,
Room Scorpio**

Keynote speech:

- **Andrea Gentili**, European Commission, DG Research and Innovation – EU policies and programmes on R&I

Session I: **Innovation and research case studies**

- **Claudio Arlandini**, CINECA - Enabling Manufacturing SMEs to benefit from simulations using cloud-based High Performance Computing (FORTISSIMO)
- **Hans-Christian Möhring**, Otto-von-Guericke University Magdeburg - Intelligent fixtures for the manufacturing of low rigidity components (INTEFIX)
- **Ulrich Thombansen**, Fraunhofer-Institut für Lasertechnik ILT - Laser-based Equipment Assessment moving technologies from lab to application (LASHARE)
- **Henning Zeidler**, Technische Universität Chemnitz – Smart Thermal conductive Al MMCs by casting (THERMACO)
- **Luis Carneiro**, INESC TEC – Extended exploitation of European research projects' knowledge and results (EXPLORE)

Session II: PANEL – **Identifying drivers of innovation in the European manufacturing industry**

- **Marco Taisch**, Politecnico di Milano - Moderator
- **Andrea Gentili**, European Commission, DG Research and Innovation
- **Claudio Arlandini**, CINECA
- **Hans-Christian Möhring**, Otto-von-Guericke University Magdeburg
- **Stefania Pigozzi**, ECOLE
- **Fulvio Rusina**, Comau

* The projects EXPLORE, FORTISSIMO, INTEFIX, LASHARE and THERMACO are funded by the European Union.

**Conference organised by
CECIMO, the European Association of the
Machine Tool Industries**
