# BACKGROUND

CECIMO is the European Association of the Machine Tool Industries and related Manufacturing Technologies. We bring together **15 national associations** of machine tool builders, which represent approximately **1500 industrial enterprises** in Europe (EU + UK+ EFTA + Türkiye), over 80% of which are SMEs. CECIMO covers **98%** of the total machine tool production in Europe and about **1/3** worldwide. It accounts for approximately **150,000** employees and a turnover of around **22.6 billion** euros in 2021. Strategically based in Brussels, CECIMO represents the priorities of machine tool builders towards EU policymakers, as well as other important stakeholders at EU and international level. We promote the manufacturing competitiveness of our industry, which has always been investing in digitisation, sustainability, and innovation.

For more than **70 years**, CECIMO has held bi-annual meetings offering a unique opportunity to the European industry peers with a space to meet and network, share ideas and get a real feel of where our sector stands and how it fits into the global picture. CECIMO meetings strengthen their relationships and promote growth and collaboration, providing our businesses with new ideas on how to grow within the market.
